My suggestions:

- Schedule (I've already heard from OSP this morning, wanting to know what to tell ERG who needs to inform the potential panel members)
- Phase 5 summary (what exactly we are providing to R8; and has this been discussed with Jim Martin/R8 consistency with R8 expectations)
- Public comment period (AO and IOAA agreed to 30 day [give end date] open comment period earlier this year)
- EPA response to comments (more focused; addressing Encana, Wyoming, BLM comments; we could always use more time if possible)

when you make changes, send ASAP to Cindy so that she can send to Lek/Ramona
